Parental Acknowledgment of Pupils' Acceptable Use of Technology Policy

1. I have read and discussed Wateringbury CE Primary School's pupil acceptable use of technology policy (AUP) with my child and understand that the AUP will help keep my child safe online.
2. I understand that the AUP applies to my child's use of school devices and systems on site and at home including (Spelling Shed, Atom Prime, Class Dojo and Numbots), and personal use where there are safeguarding and/or behaviour concerns. This may include if online behaviour poses a threat or causes harm to another pupil, could have repercussions for the orderly running of the school, if a pupil is identifiable as a member of the school, or if the behaviour could adversely affect the reputation of the school.
3. I understand that any use of school devices and systems are appropriately filtered; this means that most inappropriate material is filtered and DSLs are alerted if any inappropriate searches or access to unsuitable websites are attempted. School can report breaches of these filtering systems.
4. I am aware that my child's use of school provided devices and systems will be monitored for safety and security reasons, when used on and offsite. This includes rigorous filtering systems (wavenet filter) and alerts to inappropriate material being accessed. Monitoring approaches are in place to keep my child safe and to ensure policy compliance. This monitoring will be proportionate and will take place in accordance with data protection, privacy, and human rights' legislation.
5. I understand that the school will take every reasonable precaution, including implementing appropriate monitoring and filtering systems as above, to ensure my child is safe when they use school devices and systems, on and offsite. I however understand that the school cannot ultimately be held responsible for filtering breaches that occur due to the dynamic nature of materials accessed online, or if my child is using a personal device, including mobile or smart technologies.
6. I am aware that the school mobile and smart technology policy states that my child cannot use personal devices, including mobile and smart technology on site, unless specifically given permission for one-off incidents. Pupils in Year 5 and 6 are permitted to bring their phones to school if they have returned a mobile phone form. The phones must be switched off as soon as they get onto school grounds and handed in to the office for safe keeping.

7. I and my child are aware of the importance of safe online behaviour and will not deliberately upload or share any content that could upset, threaten the safety of or offend any member of the school community, or content that could adversely affect the reputation of the school.
8. I understand that a partnership approach to online safer is required. If the school has any concerns about either my or my child's behaviour online, or any possible breaches of the AUP, then I will be contacted.
9. I know I can seek support from the school about online safety, such as via the school website, to keep my child safe online at home.
10. I will inform the school (for example by speaking to a member of staff and/or the Designated Safeguarding Lead) or other relevant organisations if I have concerns over my child's or other members of the school community's safety online.
11. I know that my child will receive online safety education to help them understand the importance of safe use of technology and the internet, both in and out of school.
12. I understand my role and responsibility in supporting the school online safety approaches and safeguarding my child online. I will use parental controls, supervise access and will encourage my child to adopt safe use of the internet and other technology at home, as appropriate to their age and understanding.

Acceptable Use of Technology Policy for Pupils Key Stage 2

I understand that the school Acceptable Use Policy will help keep me safe and happy online at home and at school.

Safe

- ♦ I will be kind and respectful online, just like I am in school.
- ♦ I only send messages which are polite and friendly.
- ♦ I will only share pictures or videos online if they are safe, kind and I have asked for permission first.
- ♦ I will only click on links if a trusted adult says they are safe.
- ♦ I know that people online might not be who they say they are. I will only chat with people I know or who a trusted adult says are safe.
- ♦ If someone online asks to meet me, I will tell a trusted adult straight away.

Learning

- ♦ At school, I might use the computers in the computer suite, laptops and ipads in my classroom and maybe the class iPad. I will save my work on the shared pupil drive or on my portfolio. At home, my parents will tell me what equipment I am allowed to use and will make sure that there are rules to keep me safe.
- ♦ I am not allowed to use my own device in school but my teacher may let me in exceptional circumstances (I would need to ask first).
- ♦ I always ask permission from an adult before using the internet.
- ♦ I only use websites, tools and search engines that my teacher has chosen or given me permission to use.
- ♦ I use school devices for school work unless I have permission otherwise.
- ♦ If I need to learn online at home, I will follow the same rules in this policy.

Trust

- ♦ I know that some things or people online might not be honest or truthful.
- ♦ If I'm not sure something online is true, I will check with other websites, books, or ask a trusted adult.
- ♦ I always credit the person or source that created any work, images, or text I use.
- ♦ I will use Artificial Intelligence (AI) tools safely and sensibly. I won't use them to cheat, copy other people's work, or say anything unkind. I know that AI tools can sometimes make mistakes. I will only use them when a teacher or trusted adult says it's okay.

Responsible

- ♦ I keep my personal information safe and private online.
- ♦ I will keep my passwords safe and will not share them.
- ♦ I will not access or change other people's files or information.
- ♦ I will only change the settings on a device if a member of staff has allowed me to.

Tell

- ◆ If I see anything online that I should not or if I see something online that makes me feel worried or upset, I will minimise the screen, turn off the screen, shut the laptop lid or turn over the ipad. I will not just close the window or app. Then I will tell an adult immediately.
- ◆ If I am aware of anyone being unsafe with technology, I will report it to an adult at school straight away.
- ◆ I know it is not my fault if I see something upsetting or unkind online.
- ◆ If I'm not sure about something online or it makes me feel worried or scared, I will talk to a trusted adult.

Understand

- ◆ I understand that the school internet filter is there to protect me, and I will not try to bypass it.
- ◆ I know that all school owned devices and networks are checked/monitored to help keep me safe, even if I use them at home. This means someone at the school may be able to see and/or check my online activity when I use school devices and networks if they are worried about my or anyone else's safety or behaviour.
- ◆ If, for any reason, I need to bring a personal device, for example a mobile phone or other wearable technology into school then I will turn it off as soon as I get on the school site and hand it in to the office for safekeeping. It will be brought back to me at the end of the school day.
- ◆ I have read and talked about these rules with my parents/carers.
- ◆ I can visit www.ceopeducation.co.uk and www.childline.org.uk to learn more about being safe online or to see help.

Staff Acceptable Use of Technology Policy

As a professional organisation with responsibility for safeguarding, all members of staff are expected to use Wateringbury CE Primary School's IT systems in a professional, lawful, and ethical manner. To ensure that members of staff understand their professional responsibilities when using technology and provide appropriate curriculum opportunities for pupils, they are asked to read and sign the staff Acceptable Use of Technology Policy (AUP).

Our AUP is not intended to unduly limit the ways in which members of staff teach or use technology professionally, or indeed how they use the internet personally, however the AUP will help ensure that all staff understand Wateringbury CE Primary School's expectations regarding safe and responsible technology use and can manage the potential risks posed. The AUP will also help to ensure that school's systems are protected from any accidental or deliberate misuse which could put the safety and security of our systems or members of the community at risk.

Policy scope

1. I understand that this Acceptable Use of Technology Policy (AUP) applies to my use of technology systems and services, either provided to me by the school or accessed by me as part of my role within Wateringbury CE Primary School, professionally and personally, both on and offsite. This may include my use of devices such as laptops, mobile phones, tablets, digital cameras, as well as IT systems and networks, email, data and data storage, remote learning systems and communication technologies.
2. I understand that Wateringbury CE Primary School's Acceptable Use of Technology Policy (AUP) should be read and followed in line with the school's child protection policy, online safety policy and staff code of conduct.
3. I am aware that this AUP does not provide an exhaustive list; all staff should ensure that technology use is consistent with the school ethos, school staff behaviour and safeguarding policies, national and local education and child protection guidance, and the law.

Use of school devices and systems

4. I will only use the equipment and internet services provided to me by the school for example school provided laptops, tablets, mobile and internet access, when working with pupils.
5. I understand that any equipment and internet services provided by my workplace is intended for education purposes and/or professional use and should only be accessed by members of staff. Reasonable personal use of setting IT systems and/or devices by staff is allowed; this use at the school/setting's discretion and can be revoked at any time.

Data and system security

6. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or securing/locking access.
 - o I will use a 'strong' password to access school systems, passwords should be changed when prompted by our systems.
 - o I will protect the devices in my care from unapproved access or theft. For example, I will ensure that portable devices are stored securely and not left unsupervised in public places.
7. I will respect school system security and will not disclose my password or security information to others.
8. I will not open any hyperlinks or attachments in emails unless they are from a known and trusted source. If I have any concerns about email content sent to me, I will report them to the IT technician or the DSL, depending on the content.

9. I will not attempt to install any personally purchased or downloaded software, including browser toolbars, or hardware without permission from the IT technician or headteacher.
10. I will ensure that any personal data is kept in accordance with the Data Protection legislation, including UK GDPR in line with the school information security policies.
 - o All personal data will be obtained and processed fairly and lawfully, only kept for specific purposes, held no longer than necessary and will be kept private and secure with appropriate security measures in place, whether used in the workplace, hosted online or accessed remotely.
 - o Any data being removed from the school/setting site, such as via email or on memory sticks or CDs, will be suitably protected. This may include data being encrypted by a method approved by the school/setting. Amend and include specific details as appropriate.
 - o Any data being shared online, such as via cloud systems or artificial intelligence tools (AI), will be suitability risk assessed and approved by the school's Data Protection Officer and leadership team prior to use to ensure it is safe and legal.
11. I will not keep documents which contain school related sensitive or personal information, including images, files, videos, and emails, on any personal devices, such as laptops, digital cameras, and mobile phones. Where possible, I will use the school cloud storage (OneDrive) to upload any work documents and files in a password protected environment.
12. I will not store any personal information on the school IT system, including school laptops or similar device issued to members of staff, that is unrelated to school activities, such as personal photographs, files or financial information.
13. I will ensure that school owned information systems are used lawfully and appropriately. I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
14. I will not attempt to bypass any filtering and/or security systems put in place by the school.
15. If I suspect a computer or system has been damaged or affected by a virus or other malware, I will report this to the IT Technician (Kishan Solanki) as soon as possible.
16. If I have lost any school related documents or files, I will report this to the IT Technician (Kishan Solanki) and school Data Protection Officer (Satswana) via the headteacher (Debbie Johnson) as soon as possible.
17. Any images or videos of pupils will only be used as stated in the school camera and image use policy. I understand images of pupils must always be appropriate and should only be taken with school provided equipment and only be taken/published where pupils and parent/carers have given explicit written consent.

Classroom practice

18. I understand that it is part of my roles and responsibilities to ensure that appropriate filtering and monitoring is implemented by Watlington CE Primary School as detailed in our child protection and online safety policies, and as discussed with me as part of my induction and/or ongoing safeguarding and child protection staff training.
19. If there is failure in the filtering software or abuse of the filtering or monitoring systems, for example, I witness or suspect accidental or deliberate access to illegal, inappropriate or harmful material, I will report this to the DSL and IT Technician (Kishan Solanki), in line with the school child protection and online safety policies.
20. I am aware of the expectations relating to safe technology use in the classroom, safe remote learning, and other working spaces as listed in our child protection and online safety policies.
21. I am aware that generative artificial intelligence (AI) tools may have many uses which could benefit our school community. However, I also recognise that AI tools can also pose risks,

including, but not limited to, bullying and harassment, abuse and exploitation (including child sexual abuse), privacy and data protection risks, plagiarism and cheating, and inaccurate, harmful and/or biased material. Additionally, its use can pose moral, ethical and legal concerns if not carefully managed. As such, I understand that:

- AI tools are only to be used responsibly and ethically, and in line with our school child protection, data protection, and professional conduct/behaviour policy expectations.
- A risk assessment will be undertaken, and written approval will be sought from the senior leadership team prior to any use of AI tools, for example if used in the classroom, or to support lesson planning.
- A Data Protection Impact Assessment (DPIA) will always be completed prior to any use of AI tools that may be processing any personal, sensitive or confidential data and use will only occur following approval from the DPO.

- Any misuse of AI will be responded to in line with relevant school policies, including but not limited to, anti-bullying, staff and pupil behaviour and child protection.

22. I will promote online safety with the pupils in my care and will help them to develop a responsible attitude to safety online, system use and to the content they access or create by:

- exploring online safety principles as part of an embedded and progressive curriculum and reinforcing safe behaviour whenever technology is used.
- creating a safe environment where pupils feel comfortable to report concerns and say what they feel, without fear of getting into trouble and/or be judged for talking about something which happened to them online.
- involving the Designated Safeguarding Lead (DSL) (Debbie Johnson) or a deputy (Rachel Bryant and Catherina Henry) as part of planning online safety lessons or activities to ensure support is in place for any pupils who may be impacted by the content.
- Informing the DSL and/or leadership team if I am teaching topics which could create unusual activity on the filtering logs, or if I believe the filtering system is placing unreasonable restrictions on teaching, learning or administration.
- make informed decisions to ensure any online safety resources used with pupils is appropriate.

23. I will respect copyright and intellectual property rights and ensure my use of online platforms and tools is safe, legal and ethical; I will obtain appropriate permission to use content, and if videos, images, text, or music are protected, I will not copy, share, misuse, plagiarise or distribute them.

This is not an exhaustive list, and all members of the school community are reminded that technology use should be consistent with our ethos, other appropriate policies, and the law.

1. The school provides Wi-Fi for the school community and allows access for educational purposes and associated activities. The wi-fi is only accessible with a password.

5. School owned information systems, including Wi-Fi, must be used lawfully; I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
